

---

# ASSIGNMENT ONE DETAILS: DUE IN ONE WEEK

---

Professor Germonprez  
ISQA 3420

---

---

# TIMING OF FEEDBACK

---

- I have been very, very accessible throughout the entire semester. If you are looking for feedback over the weekend or next Monday, you may not get much in return.
  - I highly, highly suggest that if you have questions or comments you get them to me before the end of the week.
-

---

# FILES THAT YOU MUST HAVE

---

- DFD.md
  - DFDDictionary.md
  - ExecutiveSummary.md
  - UseCases.md
-

---

# FILES THAT YOU SHOULD NOT HAVE

---

- ERD.md

---

# FILES THAT YOU CAN HAVE

---

- README.md - This is not a necessary file but a few of you have created one as a broad overview of the project. Of the one's I've seen, I've liked their inclusion.

---

# YOUR DFD

---

- This is BY FAR the most important document
  - Lack of Clarity in Naming
  - Inconsistency in Naming
  - Not Aligned with Requirements
  - Etc.
-

---

# YOUR USE CASES

---

- These can only be written once your DFD is done
  - They represent how the people (Developer and Manager) are going to use the system.
  - Currently, there are at minimum five use cases in the full DFD. You are responsible for three.
-

---

# YOUR DFD DICTIONARY

---

- This can be done in parallel with your DFD
- However, it cannot be finished until your DFD is done

---

# YOUR EXECUTIVE SUMMARY

---

- This is a summary of why we need this system and how the system functions
- This is not about the assignment. I don't need a summary of what you did to finish the assignment

# TODO

If you'd like, partner with someone in class

In person - I'll we can take care of this in class

Online - I have a discussion board posted. You can search for a partner there and exchange repo links. This is NOT necessary but could give you an extra set of eyes on your repo if you'd like.

Make suggestions to their repository

This can come in the form of pull requests or new issues

You're editing a file in a project you don't have write access to. Submitting a change to this file will write it to a new branch in your fork germonprez/3420ISQAAssignment1-3, so you can send a pull request.

3420ISQAAssignment1 / UseCases.md or cancel

# MAKING A PULL REQUEST

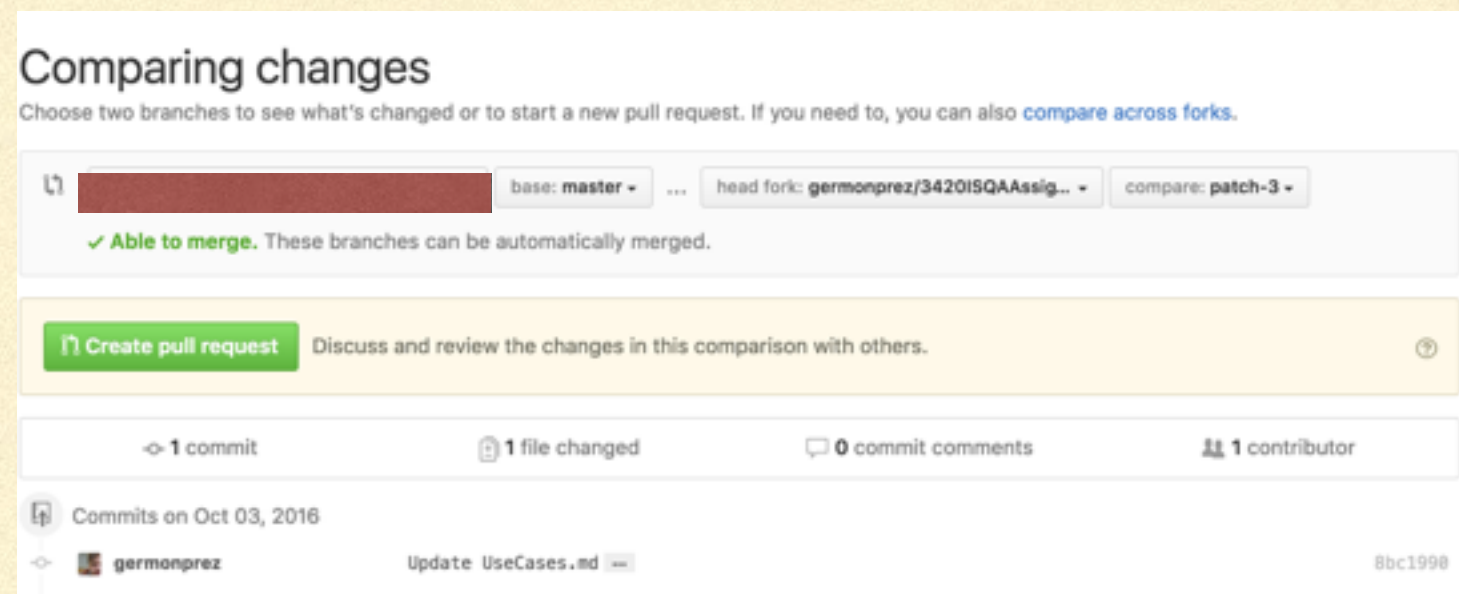

A screenshot of a 'Propose file change' dialog box. It features a user profile picture on the left. The title 'Propose file change' is at the top. Below it is a text input field containing 'Update UseCases.md'. Underneath is a large text area with the placeholder text 'This are some suggested changes'. At the bottom, there are two buttons: a green 'Propose file change' button and a grey 'Cancel' button.

**Propose file change**

Update UseCases.md

This are some suggested changes

**Propose file change** **Cancel**

A screenshot of the 'Comparing changes' interface. The title 'Comparing changes' is at the top. Below it is a subtitle: 'Choose two branches to see what's changed or to start a new pull request. If you need to, you can also [compare across forks](#).' Below this is a comparison bar with a red branch name, 'base: master', an ellipsis, 'head fork: germonprez/3420ISQAAssig...', and 'compare: patch-3'. A green checkmark and the text 'Able to merge. These branches can be automatically merged.' are shown. Below the bar is a green 'Create pull request' button and the text 'Discuss and review the changes in this comparison with others.' Below this is a summary bar showing '1 commit', '1 file changed', '0 commit comments', and '1 contributor'. At the bottom, there is a section for 'Commits on Oct 03, 2016' with a commit by 'germonprez' titled 'Update UseCases.md' and a commit hash '8bc1998'.

## Comparing changes

Choose two branches to see what's changed or to start a new pull request. If you need to, you can also [compare across forks](#).

base: master ... head fork: germonprez/3420ISQAAssig... compare: patch-3

✓ **Able to merge.** These branches can be automatically merged.

**Create pull request** Discuss and review the changes in this comparison with others.

1 commit 1 file changed 0 commit comments 1 contributor

Commits on Oct 03, 2016

germonprez Update UseCases.md 8bc1998

# MAKING A PULL REQUEST

**Open a pull request**  
Create a new pull request by comparing changes across two branches. If you need to, you can also [compare across forks](#).

  base: **master** ... head fork: **germonprez/3420ISQAAssig...** compare: **patch-3**

✓ **Able to merge.** These branches can be automatically merged.

This are some suggested changes

Attach files by dragging & dropping, [selecting them](#), or pasting from the clipboard.

☒ Allow edits from maintainers. [Learn more](#) Create pull request

You can then merge the pull request to see changes or comments

FINALLY - I CAN'T STRESS THIS ENOUGH!!

I am willing to work with you on your repositories. However, you have to start the conversation.
